

## DRUG SCREENING

- **Aids in Assurance of Drug Free Work Place**
- **Noninvasive Screening Process**
- **Accurate and Fast Results**

### Today's Risk's

The national preoccupation with the "war on drugs" has subsided somewhat as other public issues have come to the fore but drug abuse remains a matter of great public concern and the debate over a sustained drug policy continues. Among them is the extent to which employers (both in the private sector and in government) may administer drug tests to existing employees and applicants for employment. The report calls for a careful balance between the laudable goal of achieving a drug-free workplace and the vital task of individual privacy and dignity.

Virtually no one disputes that employers may legitimately test employees and applicants as a part of a fair and random program that enforces and emphasizes a drug free work environment.

ARC offers drug screening services that assist in proving a drug free environment and give companies peace of mind that they are doing all they can in providing the desired environment.

### Services

ARC drug screening services are designed to be non-invasive and discreet. Our team will come to you and take required samples and test these samples off-site and provide a report back to you within 72 hours. All samples are placed into a chain of custody process which guarantees accuracy. We will also be able to advise if a sample has been altered so as to provide a false result.

Our professional screening teams are composed of trained and certified technicians. Discreet accuracy and thoroughness are assured.

ARC Test for the following drugs:

- Tetrahydrocannabinol (the active ingredient of marijuana)
- Methamphetamine
- Opiates
